

GEAR

Instruction manuel

Thank you for purchasing the mey GEAR folding adapter.

During development and production, great importance was attached to a very high level of safety. Operational safety depends on safe handling and regular care. If you are unsure or need support, please contact your specialist dealer from whom you purchased our accessories.

Before you start converting your crossbow, make sure the crossbow is decocked and the following components and accessories are included in the box:

- 1. mey GEAR folding-adapter**
- 2. Instruction manuel**

Read and follow all safety warnings and instructions in this assembly manual and retain this manual for future reference.

Configuration Adder/Siege

When configuring an Adder/Siege crossbow, the included thread is not required. Also note that you will need a Mil-Spec threaded buttstock (*sold separately*).

1

Remove the stock and insert the folding adapter into the Adder/Siege. Fix this with the original fixing pin.

2

Now screw the stock with Mil-Spec thread into the folding adapter and fix it with the grub screw provided.

3

Then open the folding adapter and correct any play in the components using the adjustment screw provided.

step 1-1

step 1-2

step 1-3

step 2

step 3

General configuration

1

Open the folding adapter and loosen the central Allen screw with a suitable tool. Pull out the bolt and set it aside along with the screw.

2

Then turn the longer grub screw (guide pin) completely and place the thread on the folding adapter (*the groove of the thread is opposite the mey logo.*). Then fix the thread with the Allen screw of the removed bolt.

step 1-1

step 1-2

step 2-1

step 2-2

step 2-3

step 2-4

General configuration

3

Remove the buttstock and screw the folding adapter into the crossbow as far as it will go. Then fix the adapter with the grub screw. Make sure that the grub screw hits the groove of the folding adapter.

step 3-1

4

Now screw the rear stock into the folding adapter and fix it in a suitable position with the grub screw from step 2.2. We recommend the optionally available mey GEAR stock.

step 3-2

step 4

Please note that we sell our products exclusively through specialist retailers and that technical customer service is only provided directly through your dealer.
